Curator: Kenneth Ramaekers

Location: Fashion Museum Hasselt, BE

From September 12 2015 through March 13 2016, the Fashion Museum Hasselt invites visitors to step into the magnificent and captivating world of the Roaring Twenties. The exhibition is not a chronological overview, but is conceived as a meandering walk along the themes that sketched the exciting history and the context of this ravishing decade. In addition, the exhibition also focuses on the manner in which the 1920s continue to influence today's fashion.

Peter de Cupere will realize a new olfactory cotton installation.
