

Flower, a new smell-installation made for the Creativity World Forum

**On show November 16th & 17th, 2011
Ethias Arena, Hasselt - Belgium**

About Flower:

Flower is a smell-installation and is 9 m high.

Visitors can smell the strange and lovely smells the flower creates when they touch the bulb of the flower.

More than 1000 thorns look like strawberries and smell like strawberries.

The green bulb smells fresh and powerful while the roots of the flower have a more psychedelic smell and unconscious memories

CREATIVITY WORLD FORUM:

www.creativityworldforum.be

We aim to get you to **start creative spring** in your organisation. We'll kick off with **inspiring speakers and workshops**

. Hear the birds sing, smell the blossoms, feel the creative wind and **blow your mind**
